

Global History II Imperialism Diary

Name: _____

Date: _____

Part I Diary

You are going to write a five-day diary of a traveler who visits 5 different places that experienced European New Imperialism. Each diary entry will be graded on a ten (10) point scale, worth a total of 50 points. You will describe the culture and people of each of the places, and then explain how European New Imperialism has altered that society for good or for bad. You will do this from the perspective of the traveler, not in a perspective from our time period.

Each diary entry should be at least one handwritten page long. You may not type the diary entries, as they would not have typed their diary entries. They also cannot be on consecutive dates, as travel during this time was mostly done by ship. You should try to make these entries as familiar as possible.

Grade	Criteria
10	Well-written; richly supported with facts and examples; consistently well-developed; excellent analysis of European impact
9	Acceptable writing; supported with facts and examples; well-developed; good analysis of European impact
8	Bad writing; supported with some facts and examples; a general plan of organization; some analysis of European impact
7	Bad writing; inaccurate information/ few facts or examples; little analysis of European impact
6	Weak writing; few or no facts or examples; no plan of organization; no analysis of European impact

Part II Point Summary

Total

_____ **50 points**
