Notice of Third Party Online Services

The East Aurora Union Free School District (EAUFSD) contracts with third party online service operators to offer online websites, programs and services. We engage the services of these third party providers solely in an educational context and for no other commercial purposes.

G Suite for Education is one of the online services we manage on behalf of our students. G Suite for Education is a set of education productivity tools from Google, including Gmail, Calendar, Docs, Classroom, and more used by tens of millions of students and teachers around the world. At the EAUFSD, students will use their G Suite accounts to complete assignments, communicate with their teachers, sign into Chromebooks and learn 21st century digital citizenship skills.

The EAUFSD takes the protection of our students personally identifiable information (PII), educational records and instructional data very seriously. Every online service operator that we contract with provides the EAUFSD with a full notice of its collection, use, and disclosure practices, so that we may make informed decisions about where our student data exists. The EAUFSD requires that any contracted online service operator strictly adhere to the State of New York Parents’ Bill of Rights for Data Privacy and Security (<http://www.p12.nysed.gov/docs/parents-bill-of-rights.pdf>). We prefer that any contracted online service operator adheres to the “Student Privacy Pledge” (<http://studentprivacypledge.org>).

I have reviewed the Student Computer Use Agreement with my child. I understand that violation of this Agreement may be grounds for disciplinary action. I give permission for the East Aurora Union Free School District to create/maintain accounts in G Suite for Education and other third party, online services for my child and for these services to collect, use, and disclose information about my child only for the purposes described in the notice above.
